SAVINGS PLAN

The smart way to grow your money

At Bridge Markets, we believe that saving should be a smart strategy to achieve your financial goals, not just a place where your money stagnates.

That's why we created Plan Savings (Smart Savings Account), which means Gold Account.

A Gold Account is one that multiplies your money with superior returns, offering you total flexibility and the security you need in uncertain times.

WHY CHOOSE THE ACCOUNT

BRIDGE SAVINGS

INSTEAD OF A TRADITIONAL SAVINGS ACCOUNT

In contrast, the Plan Savings account offers competitive annual rates of 15% to 17% A.E., depending on the time you choose for your savings, ensuring that your money...

COMPOUND INTEREST:

MAKE YOUR MONEY GROW EXPONENTIALLY:

Traditional savings accounts tend to offer very low returns, often barely exceeding 1% per year. In contrast, the Bridge Savings Account offers competitive annual rates of up to 20%, ensuring that your money grows significantly over time. With Bridge Savings, your savings are not only safe but also work for you with superior and consistent returns, regardless of market conditions.

PROTECTION AGAINST

INFLATION

PROTECTION AGAINST **INFLATION AND DEVALUATION**

Traditional savings accounts are denominated in local currency, which means your savings can be affected by inflation and devaluation. Bridge Savings is indexed in U**S dollars, protecting the real value of your savings and ensuring that, no matter what happens with the local economy, your money will maintain its value over time.**

UNMATCHED **FLEXIBILITY**

Unlike traditional savings accounts, which often impose restrictions on withdrawals and contributions, Bridge Savings allows you to access your money when you need it, without pen**alties or complications. Additionally, you can choose from various savings plans, with initial amounts from 0 to ,000, tailoring your savings to your financial capacity and goals.**

HIGHER RETURNS **OVER THE LONG TERM**

While traditional savings accounts offer little or no long-term returns due to their low interest rates, Bridge Savings is designed to reward your commitment with increasing returns. With our 5 and 10-year plans, you will receive rates of 18% and 20% annually, respectively, allowing you to accumulate substantial wealth without the obstacles of low and fixed rates.

PLANS OF SAVINGS

1. SAVINGS TERMS

Term: 24 months

Annual Return Rate: 15 A.E.

Example: With an investment of 100 USD, your balance will grow to 2785 in 2 years

2. BRIDGE FUTURE

Term: 48 months

COMPARISON

BRIDGE SAVINGS ACCOUNT

Rendimientos:

The Bridge Savings Account offers annual returns of up to 20%, significantly multiplying your capital and accelerating the growth of your savings.

Flexibilidad y acceso:

With Bridge Savings, you don't have to worry about these limitations: your money is available when you need it, without penalties.

VS

TRADITIONAL SAVINGS ACCOUNT

Returns:

Traditional savings accounts usually offer minimal interest rates, generally between 1% and 3% per year.

Flexibility and access:

Traditional savings accounts may impose restrictions to access your money, with monthly withdrawal limits or fees for withdrawing funds outside certain conditions.
